Locality	Postal Address Phone Number
Diagram of Location/Site	

Minimum specifications for a registered loading/offloading site are an area of at least fifty (50) metre radius free of all inflammable material save live standing trees, with a constructed roadway or laneway between the site and a made gazetted road clear of all inflammable material to width of four (4) metres.

Loading and offloading on this site as well as travel to and from this site is permitted during vehicle movement bans provided that a mobile operational fire fighting unit (as specified in Council's regulations) is in attendance during loading and offloading operations and accompanies the vehicle on laneways/roadways between the registered site and made gazette road (**please note that additional fire safety conditions may be specified**). There will be a licence fee of \$50.00 payable to the local Bush Fire Brigade in the area, the owners name and locations are to be published in local media.

The above site and laneways does does not meet minimum conditions.

Inspected by _____ Rank _____ Date ____/____/____
