Subject: Planning Approval application for a mobile ice cream and beach recreational equipment hire business.

We wish to make an application for approval to operate a mobile ice cream van and beach recreation equipment hire business. The three desired locations of operation would be Blossoms beach, Main beach and Short beach in the areas indicated on the accompanying aerial photographs. We would also seek approval to provide drive by services at such locations as the fisheries marina and the local caravan parks, subject to agreement of current proprietors.

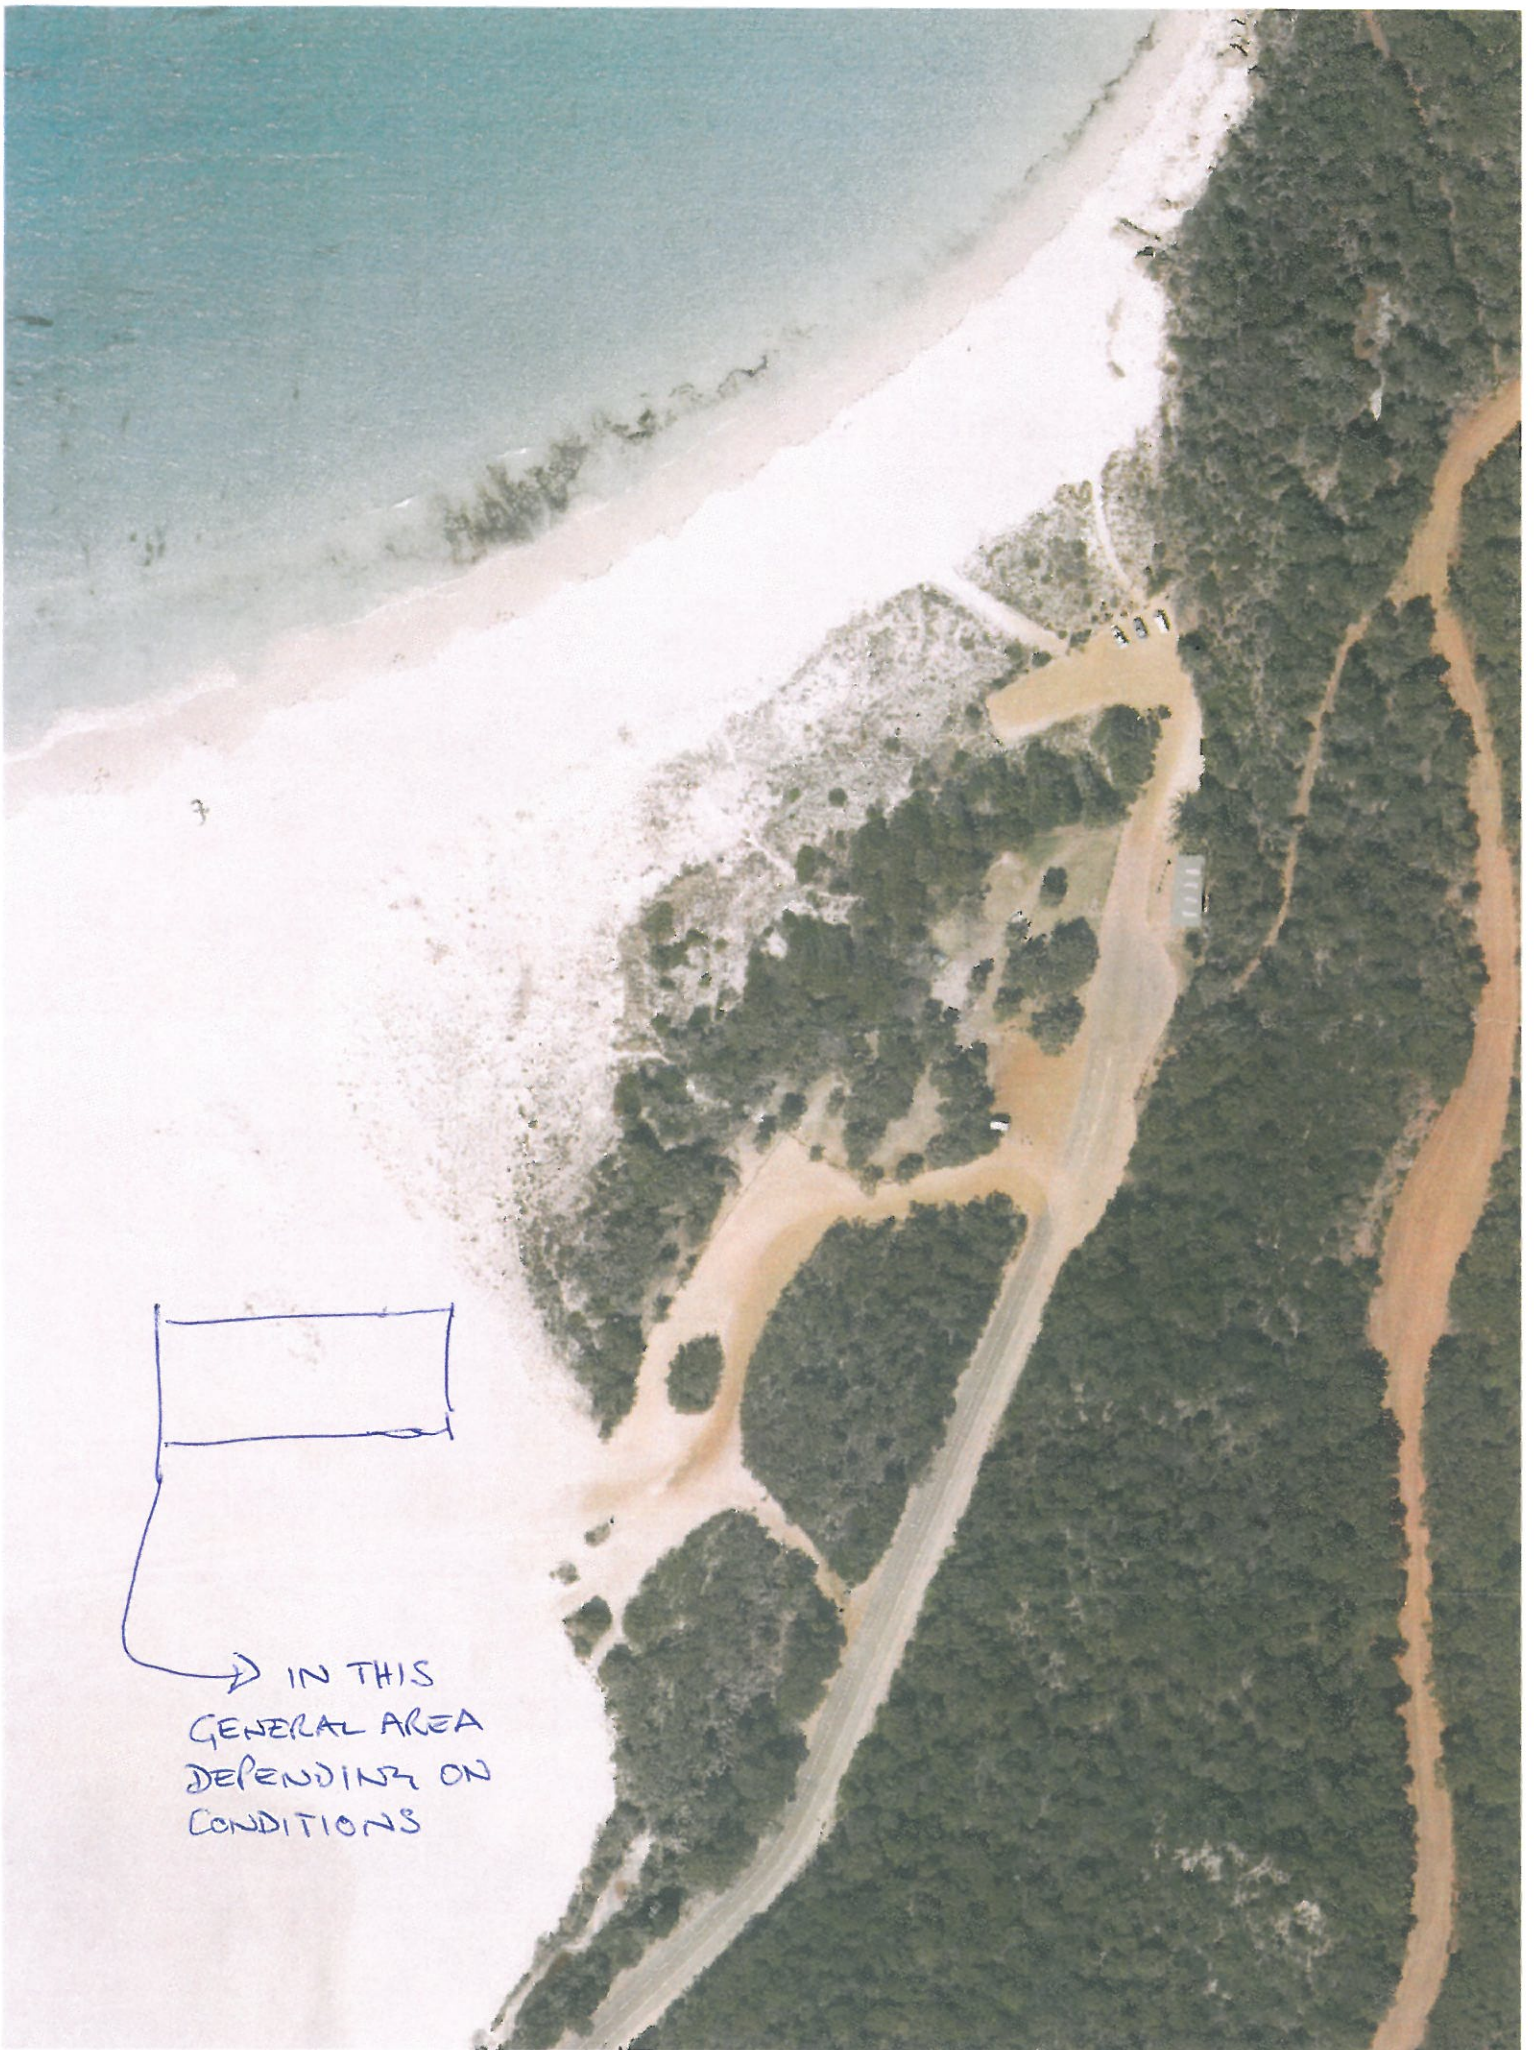

Our business would supply ice cream, beverages and confectionary for sale and beach equipment for hire during the summer months and school holidays. Our van will be professionally made and meet all health standards and regulations. All waste water will be self-contained and disposed of appropriately. A rubbish bin will be provided where required. We would be most happy to discuss any further shire requirements.

We hope to expand this business as it grows in the future to incorporate a shop in the new town centre. We are a long term land owners and business operators within the shire. We believe there is good potential tourist based ventures and hope you consider our application favourably.

Regards

Zane Mitchell
