Mr Brent Bailey
Chief Executive Officer
Shire of Jerramungup
2-4 Vasey St
Jerramungup 6337

Dear Brent,

On behalf of Fitzgerald Biosphere Group I would like to thank the Shire of Jerramungup for the support it has given the upcoming Cat Sterilisation Clinics in June 2016 and July 2017. FBG have gained approval to hold these clinics from the Veterinary Surgeons Board and are in the final stages of developing the budget and advertising material. Dr Cathy Wishart is performing the procedures with registered veterinary nurse Jess Brown assisting her.

The clinic is offering these procedures at a heavily discounted rate and Microchipping for cats and dogs will be also available. As an added incentive to cat owners to attend the cat sterilisation clinic, I would like to request the Shire consider offering free registration of one year to any cats sterilised through this clinic. Each cat owner will be given a certificate of attendance signed by Dr Wishart as verification of undertaking the surgery to assist in the registration process. The clinic will have capacity to sterilise up to 25 cats over the two day period, this number is based on the 2012 clinic results where 27 cats were sterilised.

I am currently advertising for expressions of interest to the community for participating in the clinic. Cat owners that do, will be encouraged to register their pets with the shire as part of responsible pet ownership.

Kind Regards

Georgina Griffiths
