Fatigue Management

Fatigue is a general term used to describe the feeling of being tired, drained or exhausted and is accompanied by poor judgment, slower reactions to events and decreased skill levels. Where the effects of fatigue and/or the nature of the work being performed induces fatigue causing impairment to a person's health and safety, the Shire will ensure that appropriate and reasonable action is taken. Fatigue can be the result of many different situations. Due to this, this procedure will directly reflect the implications of fatigue through the following external triggers (but are not limited to):

- Lack of sleep
- Voluntary Work
- External work commitments

In the interest of safety and health, it is important that employees remain alert and function at full capacity whilst at work. When affected by fatigue, actions may be impaired through lack of concentration and poor judgement, therefore increasing the potential to cause injury or harm to themselves, personnel or members of the public.

It is the Shire of Jerramungup procedure to provide a safe place of work for its employees. It is an employee's responsibility to report to their supervisors any other work commitments or voluntary commitments outside of their employment with the Shire of Jerramungup, which may affect their fitness for, work. Depending on the circumstances, the Shire may agree to come to a compromise with the employee to ensure there is equilibrium between regular hours worked at the Shire, sleep / rest and additional hours worked elsewhere (including paid and voluntary work). If this agreement is abused by the employee, disciplinary action will result.

If deprivation of sleep is the cause of fatigue due to other external circumstances, a drug and alcohol screen will be required. If positive, disciplinary action will result.

In circumstances where the employee is unfit to remain at work as to the judgement of their manager, the employee will be stood down from work, if the fatigue is self-inflicted, for the remainder of the day. Alternatively, to being stood down, the employee can choose to take a leave day.

In case of being stood down due to fatigue caused by work or volunteering related activities, the employee will be paid for a standard day (8 hours for admin staff, 8.5 hours for works department).

The Shire of Jerramungup understands employees may be experiencing difficulties external to work that may influence their behaviour and health whilst at work. The program consists of professional counselling services in a number of areas, which include, but are not limited to:

- Drugs and alcohol
- Personal affairs
- Support services

For the purpose of this procedure, this program may be offered to first offence employees through ratification of the CEO. Otherwise, this program will be offered on the second affirmed screening. The Shire will offer a total of 3 counselling sessions, if further sessions are required, approval is to be deemed by CEO.

If an EAP is offered as a result of a first offence and the employee declines the offer, they risk the consequence of instant dismissal on second offence.

Employees who have not failed to meet the guidelines of this procedure and feel an EAP would benefit them due to personal circumstances may utilise these services on ratification of the CEO. Such employees do not contravene the guidelines of this procedure if they volunteer for the EAP service.

Provision for Medical Assessment

A person may be referred to a certified medical practitioner of the Shires choosing for a fitness for work medical assessment coordinated by Management where the Shire has a genuine indication of the need for such examination and in deciding the need will take into account the following:

- Has adequate medical information been provided to explain the absence and demonstrate the person's fitness for work?
- What level of risk is involved in the person's normal duties?
- Are there legitimate concerns that the person's illness or injury will affect others in the workplace?

Where a certified medical practitioner will not, or is unable to confirm a person's fitness for the stated duties, they will be requested to refer the person to a specialist. Further action will be dependent on the fitness for duty report.

All work related injuries or illnesses will be dealt with by Management in accordance with Injury Management and/or Workers Compensations processes.

Non-Work Related Injury or Illness (NWRI)

If an employee experiences a significant non work related injury or illness that has the potential to impact on their ability to undertake the full duties of their position, then a medical clearance from their treating practitioner, confirming the employees abilities to undertake the duties of their role, will be required before returning to work. If an employee presents to work and is subsequently unable to carry out the duties of their position, or where their Supervisor reasonably believes there is a risk to them or other employees, the employee may be stood down in consultation with Management until independent medical advice is received, confirming their fitness for work.
